

CruiserEvalTM

COURSE EVALUATION FOR TODAY'S STUDENTS

Introducing CruiserEval, one of the newest modules of our award-winning software as a service academic suite.

- **Create and distribute thousands of course evaluations in minutes – all accurately pre-populated with student, instructor, and course information.**
- **Measure the impact of your courses, instruction, and student experiences – and improve performance.**
- **Use formative evaluations to promote mid-course adjustments.**
- **Save money, speed evaluation process, eliminate waste, protect data, and deliver timely results with Software as a Service.**

THE RIGHT PLACE AT THE RIGHT TIME

CruiserEval allows colleges and universities to leverage evaluation data to their advantage by getting the right information to the right people at the right time, so they can make better decisions faster.

Course evaluations are used by academic leadership for faculty reviews, content improvement, and gathering data to support critical and informed decisions, but when these data are difficult to retrieve, they are of little help.

SAFE & SECURE

CruiserEval provides a safe and secure environment for collecting course evaluation data through a secure login – yet maintains complete anonymity for every respondent's submission.

WHEN IT REALLY COUNTS

By automating course evaluations through Timecruiser's on-demand system, you can increase efficiencies throughout the evaluation development, distribution, analysis, and reporting processes in countless ways – leading to significant cost reductions.

PAPERLESS & ON-DEMAND

- Streamlined evaluation process
- Free up staff time
- Unlimited evaluations
- Customize evaluations as needed
- Easy access to secure data
- Instant data availability for analysis
- Near-instant results
- Reports may be customized per institution
- Paperless process – saves money and natural resources
- Meaningful analysis for Business Intelligence and data-driven decision making.

SUCCESSFUL FOR:

- End of semester evaluations
- Mid-semester benchmarks
- Instructor evaluation
- Curriculum assessment

TIMELY REPORTS & DATA INTEGRITY

All course evaluation data and reports are centrally stored with optimum security. You can run the reports you need, when you need them, and share them with authorized users. Immediate access to the data means that you can perform analysis and compare data so improvements to courses can be made right away. Plus, historical data are available at any time for longitudinal analysis.

“CruiserEval has improved our Student Opinion Survey survey significantly. Our old paper-and-pencil Student Opinion Survey process was costly in terms of staff, time, equipment and paper. We needed seven people to administer the SOS process, now only one person is required. Instead of waiting a month and a half for the results, we can post them instantly, in real-time.

And faculty love this. CruiserEval has truly revolutionized the way we conduct our course evaluations.”

Todd Gunter, MIS Director, The Sage Colleges
